

CANOPUS

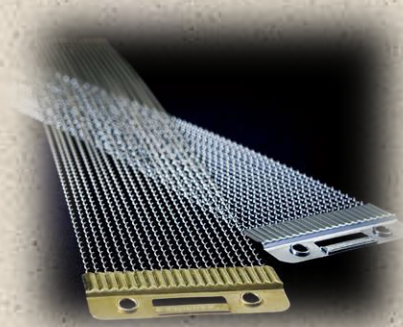

Vintage Snare Wire

Made in Japan, Canopus decided to copy the old Slingerland wires, only 0,5mm thick, spiral diameter of 1,35mm and 3,4mm pitch. With endplates being only 0,5mm thick, the snares are extremely sensitive, and even the plated models are very thin and sensitive, with a warm, yet crisp tone.

Available in sizes from 10"

Standard Vintage Wires are 20 Strand
14" available in 16 & 42 Strand

Back Beat Snare Wire

The snare wire for this series, is made in Germany. More spiral gives more contact points, and a louder snaresound. With endplates being 1,0mm thick, you get more backbeat, and the Dry version is well suited for wooden snare drums, while the Chrome Plated models are great for metal snares.

Standard Back Beat Wires are 20 Strand
Also available in 16 & 42 Strand

Vintage End Plate 0,5 mm
Back Beat End Plate 1,0 mm

Back Beat Dry well suited for wood snare

Back Beat Plated, well suited for metal snare

CNC Snare Cord

CNB Snare Belt
